

ELD – Best Practices & Technologies Phase II

March 15, 2018

12:30 p.m. – 4:15 p.m.

Fleetworthy Solutions

4600 American Parkway – Madison, WI

What you will learn:

ELD's are now fully implemented among motor carrier fleets, but many carriers may not have plans in place to manage and monitor the data. During this seminar series, we will be discussing a number of topics that will inform motor carriers of the "next steps", now that ELD's have been fully implemented. We will be covering what the regulation says in regard to carrier responsibility, and some best practices for monitoring and managing driver logs.

Here are a few topics that will be discussed:

- Auditing Logs
- Supporting Documents
- Form and Manner Violations
- System Settings
- Editing Data

Presenters: **Tim Kelly** - *Great West Casualty*

Tim works for Great West Casualty Company as a Sr. Safety Representative. He grew up in a trucking family and has 17 years of experience in the trucking industry. The majority of that experience has been in safety management & risk control. He is a former officer and chairman of the Wisconsin Council of Safety Supervisors. He graduated with a B.A. from Iowa Wesleyan University, and lives in Fox Lake, WI.

Cost: **WMCA Members** - \$70
Non-Members - \$90
